

Application Serial No. 10/822,330  
Amendment dated February 14, 2006  
Reply to Office Action dated November 23, 2005

**Listing of the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**CLAIMS:**

Please amend claim 14, as follows:

1-13. (Canceled)

14. (Currently Amended) A navigation interface system, comprising:

a portable electronic device;

an application module customized to operate on the device;

a navigation library having navigation modules, guidance modules, mapping modules, and routing modules, wherein the navigation modules, guidance modules, mapping modules, and routing modules are assembled in user-defined and custom arrangements within the application module; and

wherein the application module selectively interfaces with at least one of the navigation modules, the guidance modules, the mapping modules, and the routing modules.

15. (Original) The system of claim 14, wherein the portable electronic device is at least one of a personal digital assistant and a cell phone.
16. (Original) The system of claim 14, wherein the navigation library is remote from the device.
17. (Original) The system of claim 14, wherein the navigation library further includes compass modules, barometer modules, and/or gyro modules.
18. (Original) The system of claim 14, wherein at least a portion of the navigation library resides on a removable computer readable medium.
19. (Original) The system of claim 14, wherein the mapping modules include at least one of a draw map operation, an overlay operation, a set scale operation, and a set zoom operation.
20. (Original) The system of claim 14, wherein the routing modules include at least one of a generate route operation, a get estimated time of arrival operation, and a get elapsed time to destination operation.
